TITLE INDEX

A

A 42 month clinical evaluation of glutaraldehyde pulpotomies in primary teeth, Franklin Garcia-Godoy, No. 2, p. 148

An epidemiological study of TMJ dysfunction syndrome in adolescents, Tadashi Ogura, Takanobu Morinushi, Hideo Ohno, Kazugo Sumi and Keiko Hatada, No. 1, p. 22

A method for determination of cariogenicity of foods, Denise Vedrenne and Alfonso G. Rangel, No. 1, p. 36

Assessment of a 2% buffered glutaraldehyde solution in pulpotomized primary teeth of school children: A preliminary report, Anna B. Fuks, Enrique Bimstein and Hortense Klein, No. 4, p. 323

B

Bruxism in children, Rubina Ahmad, No. 2, p. 105

C

Chlorhexidine: Notes and comments, Paul N. Baer, No. 4, p. 365

D

Dental education of expectant parents. Anthi Tsamtsouris, Audrey Stack and Murad Padamsee, No. 4, p. 309

Dental sounding board . . . Excessive overjet and impending impaction of mandibular second bicuspids, Murad Padamsee, No. 4, p. 367

Dental sounding board . . . The case of the bilateral replacement of the mandibular first molars, Murad Padamsee, No. 3, p. 283

Dental sounding board . . . The case of the reluctant adolescent, Murad Padamsee, No. 2, p. 185

Dimensional differences in the attached and keratinized gingiva and gingival sulcus in the early permanent dentition: A longitudinal study, E. Bimstein, E. Machtei and E. Eidelman, No. 3, p. 247

E

Ectopic eruption of permanent first molars, Robert J. Venn, No. 1, p. 81

F

Formocresol pulpotomies in primary molars: A radiographic study in a pediatric dentistry practice, M. John Hicks, Elizabeth S. Barr and Catherine M. Flaitz, No. 4, p. 331

Frequency of crossbite in surgically treated cleft lip and/or palate children, Athanasios E. Athanasiou, Mohammad Mazaheri and Kourosh Zarrinnia, No. 4, p. 340

Functional disorders of the stomatognathic system: Part II—A review, Murad Padamsee, Jeffrey H. Ahlin, Chih-Ming Ko and Anthi Tsamtsouris, No. 1, p. 1

Functional disturbances and diseases of the stomatognathic system: A cross-sectional study, Maria Nilner, No. 3, p. 211

L

Lost in a pivotal time period: Part III, George E. White, No. 1, p. 97

Lost in a pivotal time period: Part IV, George E. White, No. 2, p. 190

Lost in a pivotal time period: Part V, George E. White, No. 3, p. 296

Lost in a pivotal time period: Part VI, George E. White, No. 4, p. 377

P

Papillon-LeFevre syndrome: Pediatric dental management, Saul Kamen, Paul Crespi, and Leon Eisenbud and Theresa Dolan, No. 4, p. 356

Parent, dentist and child classification for behavior management in the dental environment, Federico M. Garcia-Godoy, No. 3, p. 273

Parent's carbohydrate intake and the oral health of their child, Randal S. Asher, Curtis G. Kuster, Ira N. Moyer and David W. Boyd, No. 2, p. 156

Partial 15q trisomy: Report of three siblings, Robert A. Boraz, R. Neil Schimke, and Debra Collins, No. 1, p. 89

Posterior capsulitis in a 9 year old girl, Catherine Karayanii, Thanos Halazonetis and Denise Vedrenne, No. 2, p. 176

Preliminary clinical evaluation of dentinal and enamel bonding in primary anterior teeth, Carl O. Atkins, Jr., Loretta Rubenstein and Mitchell Avent, No. 3, p. 239

Prevention from infancy through Adolescence, Catherine Karayanni, No. 4, p. 303

Pulpal calcifications in primary teeth: A light microscope study, Hashim B. Yaacob, and Jasmah Ab. Hamid, No. 3, p. 254

O

Odontoma of a maxillary central incisor in a 10 year old black male, Glenn S. Gallien, Norman J. Schuman, Harry K. Sharp and Lezley P. McIlveen, No. 4, p. 352

S

Signs and symptoms of temporomandibular joint dysfunction in 3 to 5 year old children, Marcela Bernal and Anthi Tsamtsouris, No. 2, p. 127

Surface topography of the cavosurface enamel bevel following acid etching in primary teeth, David R. Myers and Michael B. Butts, No. 1, p. 63

Survey of pedodontic postdoctoral programs, Larry S. Luke, No. 2, p. 169

Survival and expansion of community pedodontic services in a local university children and youth project, Norman J. Schuman, W. Thomas Fields, W. Mark Owens and Nancy Johnson Williams, No. 1, p. 76

T

The current status of dental caries in the pediatric population, M. John Hicks, Catherine M. Flaitz and Leon M. Silverstone, No. 1, p. 57

The dangerous toothpick, Paul N. Baer, No. 2, p. 183

The effectiveness of a 0.4% stannous fluoride gel vs 0.1% stannous fluoride rinse on occlusal enamel, Aspa Vassilopoulou and George E. White, No. 2, p. 141

The histological examination of primary enamel as a possible diagnostic tool in developmental disturbances, H. Judes, I. Eli, M. Jaffe, D. Attias and K. Jagerman, No. 1, p. 68

The incidence of dental invagination, A. Ruprecht, S. Batniji, K.A.R.H. Sastry and E. El-Neweihi, No. 3, p. 265

The incidence of mesiodens in children of Hispanic descent, Laura Castillo Kaler, No. 2, p. 164

The role of the tongue in facial development, Henri Petit and Walter Davis, No. 3, p. 199

V

Verification of juvenile periodontitis by bacteriological identification, Rochelle G. Lindemeyer, No. 3, p. 290
